Arniko Awasiya Secondary School, Biratnagar, Morang

PROJECTS

AI Assistant   Live Demo
AI Assistant is a real-time voice assistant, built with Next.js, React, and Tailwind CSS, offering personalized and responsive AI interactions. Designed to simulate natural conversations with an intuitive UI.

Weather App   Live Demo
A React app that shows real-time weather and temperature for any location using a weather API. It features a clean UI, is mobile responsive, and displays the 24-hour weather forecast and temperature of the location, hour by hour.

Currency Converter   Live Demo
A responsive React app for real-time currency conversion with live exchange rates and country flags. Built with accuracy and simplicity in mind for quick conversions.

Personal Chatbot   Live Demo
A very customizable private chatbot made using React, Tailwind, and Gemini API. Offers personalized interactions and can adapt to different use cases.

Note Book   Live Demo
Note Book is a full-stack note-taking app built with the MERN stack. It lets users create, update, and delete notes with a clean, responsive UI.

Recipe App   Live Demo
A simple web app built with HTML, CSS, and JavaScript that fetches open API data to display recipes. Features a clean design for easy browsing of meals.
